Fusion Ceramics, Inc. certifies that the workmanship and / or process specifications applicable to this order meet or exceed the stated requirements. The recommendations for the use of this product are based on tests believed to be reliable, but the end product is beyond our control. This material should be tested under the customer's manufacturing conditions. There is no expressed or implied warranty of exact properties and we do not accept responsibility for results obtained in service. All test reports are on file and available for review at our plant.
