Instruction Manual.

Parts Description

【Warning】 Please start to use the wheel only after you understand the safety information and functions of the equipment.

This instruction manual provides three grades of warnings as follows. Please follow these instructions carefully.

Danger

Danger marking indicates a possible death, severe injury or fire if the user disregards the warning.

Warning

Warning marking indicates the possibility of a severe injury if the user does not follow the instructions.

Caution

Caution marking indicates the possibility of light injury or damages if user operates the wheel improperly.

Extremely important markings to pay attention to:

Warning, Pay Close Attention

Do Not

Please Follow Instructions

Shimpo will not indemnify any damages or loss caused by improper operation due to the lack of following the instruction manual, natural disaster, fire, or user's abuse or negligence.

⚠ Danger

<p> Do not use the wheel other than for throwing clay.</p> <p>This product is designed for the creation of ceramic art.</p>	<p> Do not place any items other than ceramic materials on the wheelhead.</p> <p>Water buckets and tools should be placed on the attached workspace.</p>
<p> Repairs and modifications by the user are prohibited.</p> <p>May cause electrocution or injury.</p>	<p> Do not insert hands or objects into openings or moving parts.</p> <p>May cause electrocution or injury.</p>
<p> Do not leave children unattended near wheel.</p> <p>   Injury may occur</p>	<p> Please ask for Shimpo Dealer to replace the power cord when you have problem. Never repair the power cord by yourself.</p>

--	--

Do not move or hold the wheel while power is on.

The wheel cabinet may start turning and your hand may be caught between the wheelhead and the enclosure.

Be careful of loose fitting clothing and long hair.

May catch in clay or wheelhead causing damage or injury.

Caution

Do not lift the wheel by the wheelhead.

May cause damage or injury.

Be careful of jewelry and long nails.

Jewelry may catch in equipment and cause damage or injury. Nails may be broken.

Place the wheel on a flat, horizontal surface.

It may cause a vibration if the placement is not level.

Do not remove the bottom cover.

There are electrical parts which need to be protected from hands, water and other materials.

Do not place a TV, radio, or an antenna too close to the wheel.

May cause damage or injury.

It may cause noise and picture distortion.

Splash Pan Installation

① Put splash pan and turn to the left.

 If water or clay is filled over this line, it overflows to the inside.

Wheelhead Installation

① Install pins adjusting the position.

 Please be sure to fix pins firmly not to be unhooked.

Power Connection

 Please do not use this wheel with any voltage or frequency other than what is indicated.

Confirm that you have the correct line voltage and then insert power plug into the power outlet.

 Do not connect many power cables to the same outlet.

 Make sure the power switch is off when you plug the power cable into the AC outlet.

Operation Warning

 Press the lever handle all the way back before turning the power switch off.

The wheelhead will not move if the lever handle was not all the way back at last power off.

 Do not operate any switches with wet hands.

Operation Starting and Stopping

Start

- ① Please check the lever handle all the way back to stop position.

- ② Turn the power switch on.

Power switch flash.

- ③ Turn on a changeover switch to select direction.

A ...Clockwise
B ...Counter clockwise

- ④ Press the lever handle from the stop position to increase speed. Step backward to reduce speed.

Stop

- ① Press the lever handle all the way back to stop wheelhead.

- ② Turn the power switch off.

How to change Wheelhead Direction.

- ① Press the lever handle all the way back to stop wheelhead.

If you change a switch to counter clockwise, wheelhead will be stoppd.
After pull the lever all the way back and move the lever toward, turn wheelhead counter clockwise.

- ② Change the direction with a switch.

Operation Power Switch

The power switch has two functions. One is to turn wheel on and off. The other is a reset function. This wheel has a safety feature for over load. In order to reset, operator must switch off and on again. (Don't forget to press the lever handle all the way down before turning switch back on.)

- ① Switch the on switch to the off position (refer to diagram).
- ② Return the lever handle to the off position(refer to diagram).
- ③ Turn the power switch back on.

Maintenance

Use caution when performing any maintenance, inspection, and adjustments.

Turn the power switch off and unplug the power cable for cleaning, testing or adjustment. (It is recommended to do the same if the wheel will not be in use for a long period.)

DO NOT POUR WATER ON THE WHEEL TO CLEAN IT.

Wipe the wheel down with a damp sponge or cloth. (Splash pan can be cleaned if it is removed from the wheel.)

Troubleshooting

Problem Wheelhead does not turn

- Is the wheel plugged in to the power source?
- Is the power switch in the "on" position?
- Is the power source working correctly and supplying the correct amount of electrical current?
- Is the lever handle at the "0" position ?
- Are there several wheels or other equipment/appliances on the same circuit?
(Check the breaker to see if the circuit has been overloaded.)

Problem Unusual sound coming from the wheel body

- Is the wheel resting on a solid surface and level?
- Is there too much clay on the wheelhead?
- Is the clay totally centered?

Problem The wheelhead stops turning

- Did the wheel stop turning due to too much clay on the wheelhead?
- Did an overload cause the breaker to open at the main power source?
- Has the power cord become unplugged?
- Is the Power Switch in the on Position?
